

**Thank you for offering use Mac's Abacus Basic curriculum to teach early math to your class**

We are planning to select two Classrooms for this Study. The winners will receive (1) **Mac's Abacus Basic Kit** (Abacus and Workbook) for each child in the class, plus (1) **Kit** for the teacher (all yours to keep).

*In order to help us make the selections, please fill out the information below.*

School Name	Address			Phone#			
	Street	City/State	Zip				
Administrators Name:		Administrators approval: <input type="checkbox"/>					
Teacher's Name	Phone#	# Years Teaching	Number of Students	Grade	Estimate Student Performance *		
					% Low	% Mid	% High
(*) We ask for this Estimate because we are looking for challenging Classrooms.							
<input type="checkbox"/> I agree to send you a Monthly Report.			<input type="checkbox"/> I agree to send you an end of year summary Report.				
<i>We want to fit into your preferred class schedule for teaching Math Concepts. The questions below are our attempt to understand your plans.</i>							
Are there other classrooms at the same level in your school? If so, How many?							
<b>What Math Concepts do you plan to teach this class during the school year?</b>							
Counting to _____	Add?	Subtract?	Decimal System?		Count Money?		
Other Math Concepts you will be teaching in this class?							
What do you anticipate will be the duration of this curriculum in your class?							
When would you like to start?				When do you expect to finish?			
We expect monthly reports (we will supply a spreadsheet form to make that easier) and an end of class-year Summary Report on the effectiveness of <b>Mac's Abacus Basic</b> curriculum.							
<i>The format for that report will be up to you, but basically, we will want to know how well the kids learned and if there are any problems with this method.</i>							
<i>We are also looking for suggestions that will improve our curriculum and intend to work closely with you to ensure success. We also plan to share your experiences with other teachers and parents in occasional emails.</i>							
Are there any other comments or suggestions you would like to make at this time?
